### The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as treated by the writings of leading teachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

### SCIENCE PREVENTS BALDNESS.

**The Fatal Germ and Its Remedy Now Facts of Science.**

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

## Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

### ORCHARD'S TESTIMONY.

Harry Orchard yesterday completed his amazing narration of organized murder and assassination in Boise, Idaho, concluding it with an account of how he blew up ex-Gov. Frank Steunenberg, for whose murder William D. Haywood, secretary of the Western Federation of Miners, is now on trial.

In the Steunenberg murder, and in all the other assassinations in which Orchard had a hand, he was acting under the explicit direction, he testified, of Haywood, Moyer, and Pettibone.

James H. Hawley finished the direct examination of Orchard at 3 o'clock, and Lawyer Richardson, of the defense, at once took up the cross-examination. Up to the time of adjournment he made not the slightest impression upon the story that Orchard had told. He made him admit bigamy and running away with another man's wife, but little things like those fade into insignificance after the others the witness had been describing for a full day and a half.

Throughout the long list of crimes attempted and performed by Harry Orchard and Steve Adams, as narrated by the former, counsel for the State has never failed to get the witness to state positively and definitely that either Haywood, Moyer, or Pettibone instigated the assassination, and that sometimes all three of them had a hand in it.

The various sums paid to Orchard have been stated every time. Sometimes Haywood paid him personally, the witness said, and sometimes it was Pettibone, generally the latter.

Yesterday's murder record exhibited accounts of repeated attempts to assassinate Gov. Peabody, of Colorado, Gen. Sherman Bell, who commanded the Colorado militia at the strike of Cripple Creek, in 1903; Judge Gabbert and Judge Goddard, of the Colorado Supreme Court, who had rendered decisions against the strikers, and Fred Hearne, manager of the Colorado Fuel and Iron Company.

None of these was successful, though one attempt to get Judge Gabbert caused the death of a mining engineer named Marion Walley. This, aside from the Steunenberg murder, was the most tragic of the day's stories.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptons only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative sold by E. S. Leadbeater & Sons.

**Charges Against a Preacher.**

A dispatch from Atlanta says that the admitted attempt of Rev. George Barnwell, pastor of Englewood Baptist Church, to get a kiss from pretty Mrs. Clara Loudon, wife of the Sunday school superintendent, has put the congregation by the ears, and yesterday almost caused a meeting of the congregation to consider the matter to break up in a riot.

Rev. Mr. Barnwell, who is married and has children, tried to get a kiss two weeks ago during the absence of Mrs. Loudon's husband. The preacher called at the Loudon home at night, and, according to Mrs. Loudon, said: "My, how sweet you are; give me a kiss," and tried to take the kiss he asked for.

Mrs. Loudon dodged the parson's smack, and says she ordered him from the house. Mrs. Loudon told her husband when he returned, and then trouble began. Mr. Loudon called on Rev. Mr. Barnwell, and the latter said he was only joking when he asked Mrs. Loudon for a kiss. The husband stormed at the preacher, and soon 800 members of the church were spilt into Loudon and Barnwell factions.

Yesterday a great church meeting was held to consider the matter, at which the preacher's friends were in the majority. When Loudon realized this he walked to where Rev. Barnwell sat, slapped the preacher's jaws, and denounced the preacher as a "wolf in sheep's clothing."

The preacher's friends seized Loudon and dragged him away. Several blows were struck, and a free fight was only averted by a few cool members.

The men of the congregation are almost unanimously for Rev. Barnwell. Edgewood Baptist Church is one of the largest in the city, and the Rev. Barnwell is noted for his eloquence.

**A Real Wonderland.**

South Dakota, with its rich silver mines, bonanza farms, wide ranges and strange natural formations, is a veritable wonderland. At Mound City, in the home of Mrs. E. D. Clapp, a wonderful case of healing has lately occurred. Her son seemed near death with lung and throat trouble. "Exhausting coughing spells occurred every five minutes," writes Mrs. Clapp, "when I began giving Dr. King's New Discovery, the great medicine, that saved his life and completely cured him." Guaranteed for coughs and colds, throat and lung troubles, by E. S. Leadbeater & Sons, druggists, 50c and $1.00. Trial bottle free.

**Airship Dropped Into the Sea.**

After an exciting trip over Greater Boston in his airship, Lincoln Beachy, of San Francisco, dropped with his flying machine into the water between Nahant and Revere Beach yesterday afternoon, and was rescued by four boats, which had been chasing his disabled air-craft for half an hour.

He was carried several miles in the direction of Boston light. Then he got temporary control of the machine again and sailed over Nahant, and finally a mile off Revere Beach he dropped into the water. The boats, which had started after him when he was seen wobbling in the air above Winthrop, soon reached him, and fifteen minutes later had him and his airship on shore.

On the way to the Common he circled his airship twice around the State House dome and dropped a message for Gov. Guild.

New Crop NEW ORLEANS MOLASSES choice, just received by J. C. MILBURN.

FRIDAY EVENING, JUNE 7, 1907.

THE DEPOSITION of Orchard in Boise City, Idaho, shows that murder had become with him a trade, and his course makes it patent that crimes akin to those committed in certain parts of Russia are no more horrible than deeds perpetrated during the past few years in the United States. Cold, dull, passionless and even-voiced the dispatches agree he was on the witness stand; he told his horrible tale without horror, and, be it noted, without pride, without the vaunting of the familiar ill balanced, egotistic wretch who boasts of enormous crimes he never committed. He made murder a business and he retailed assassinations in that matter of fact way in which a man speaks of his profession. It is to be noted that Orchard is not describing imaginary crimes. The men whom he tells of killing were killed, and in the way he depicts. They were "scabs," such as the men blown up at Independence Station, or mining superintendents who employed "scabs," or public officials who sought an equal enforcement of the laws. The only person whose death was mentioned in Orchard's testimony and who did not belong to one of these classes was a man named Wally, killed crossing a lot in Denver, and he died, according to Orchard, from the explosion of a bomb intended for Judge Gabbert, of Colorado, whose view of the law was not regarded with favor in Western Federation circles. Thus the crimes actually took place, and from their nature it is easy to see that the federation may have had an interest in them. A motive does not need to be established. All that is needed is corroboration of Orchard's story that the officials of the federation inspired the crimes. If it be established that the "inner circle" of the federation was a murder syndicate the cheapness in which human life has been held in the mountainous mining regions of the West will help us to understand how men could be found to plan and carry out such wholesale assassinations.

ALL DETAILS of the breeziest scandals in army circles for years culminating from the now famous order of Lieutenant Colonel Howse of the West Point Academy in taking away from fair guests at the Easter review, the military overcoats which the cadets had loaned them, promise to be revealed in the civil courts of New York in suits to be instituted by Mrs. Elizabeth Ayres, wife of a lieutenant-colonel in the regular army, who has been barred from the academy grounds at West Point by a War Department order. Mrs. Ayres has instructed her attorney to file suit for damages aggregating $300,000 against Col. Scott, superintendent of the academy; Lieutenant Colonel Howse, Captain Oliver, assistant instructor of tactics, and Lieut-Col. Mills, inspector-general. What was first described as a tempest in a teapot now promises to grow into a storm which may involve the whole War Department. Sensational revelations regarding army life and army methods are promised by Mrs. Ayres when her suits come to trial.

"IF YOU want your daughter to contract tuberculosis or some other communicable disease, send her to a fashionable girls' college, that she may become the 'darling' of other girls and literally be kissed to death." This is the startling warning uttered before members of the American Medical Association, at Atlantic City yesterday, by Dr. G. Werter Drake, head of the Hollins Institute, the oldest and most fashionable school for young women in Virginia, and, indeed, in the whole South. Under Dr. Drake's instruction in Hollins Institute are the daughters of William Jennings Bryan, Senator Benjamin F. Tillman, of South Carolina, and Charles Delmonico, the famous New York restaurateur. The crusade against kissing has been waged from time immemorial, but the practice continues to be as universal as ever.

THE UNWRITTEN law was applied to John Jacobs, a negro, by a white jury in the Circuit Court in Richland county, S. C., yesterday, acquitting him of murdering his wife and her paramour on the night of May 5. Jacobs went home on that night, and, finding his honor compromised, killed both by beating in their heads with a hammer. The jury was appealed to on the plea of the unwritten law, and this is what it based its verdict upon after 15 minutes' consultation. The verdict was cheered by the large number of negroes present.

U. S. SENATOR P. C. KNOX has announced his purpose of becoming a candidate for the republican nomination for President. He has been endorsed by the republican convention of Pennsylvania. From present indications the next republican convention will be characterized by as much animation as was that which nominated Abraham Lincoln in 1860.

## From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, June 8.

The results of tonight's conference between the President and a number of his official advisers will probably be as follows: Directing the Attorney General to proceed, before the summer vacation, with the prosecuting of three important trusts: Harvesters, anthracite coal and powder, under the provision of the Sherman anti-trust law; directing the Interstate Commerce Commission to file a motion in the southern district of New York demanding that E. H. Harriman show cause why he should not be required to answer certain questions put to him by the commission at the investigation of last winter; instructing the Attorney General to further press his investigation into the operation of the bituminous coal-carrying trust and the tobacco trust with a view to beginning action for their dissolution in the fall; suggesting to the Attorney General that he lose no time in re-opening the government's case against the fertilizer trust in the Tennessee courts; recommending that the interstate commerce commission press its investigations into the operation of the Harriman and Hill railway systems and the grain and lumber trusts. The entire trust-busting programme of the administration, present and future, will be thoroughly discussed. Certain members of the Interstate Commerce Commission will advocate the bringing of a suit to dissolve the Harriman system, but it is understood that the other members of the commission, the Attorney General and members of the cabinet, who have already discussed the matter with the President, have concluded that such action would be unadvisable before getting a ruling from the Supreme Court on whether or not Harriman can be compelled to answer questions or be punished for contempt. The President has made it clear that he will leave the decision of procedure on this question to his advisers.

The candid announcement by Senator Knox, knowing the action of the Pennsylvania State republican convention yesterday that he would accept the nomination for President, has made a favorable impression here. The Pennsylvania Senator is popular in Washington and the impression is that he will make a strong candidate for the nomination. He has already been stamped O. K by President Roosevelt, who in several public speeches, has taken occasion to praise Knox's services in promoting the Roosevelt policies. Although the President has expressed a personal preference for Taft as his successor, it may be stated without dispute that the White House influence will not be used in favor of Taft as against Knox. Secretary Taft declined to discuss the Knox boom today. Senator Foraker, however, when shown Senator Knox's statement, accepting the endorsement of the Pennsylvania convention, said: "I am not surprised, and am glad to hear it. Senator Knox is a very able and worthy man."

An accident marred the success of the race of the six torpedo boats which started from Sandy Hook for Norfolk. Admiral Evans, commander-in-chief of the Atlantic fleet, reports by wireless to the navy department that the torpedo boat destroyer Hopkins, which was one of the flotilla, broke a propeller stem off Hog Island, light, just north of Cape Charles, and is now in the tow of the Whipple bound for the navyyard at Norfolk, where she will be docked as soon as possible. The accident caused a hole in the stern of the vessel, but although she is leaking badly, the pumps are holding their own. Tugs have been sent from the Norfolk yard to the assistance of the crippled vessel.

Mayor Garrett, of Glen Echo, has called the hands of the State Department and Department of Justice, which were after the mayor on the complaint of the Italian ambassador that he had been wrongfully stopped by Marshal Collins for scorching his automobile. The mayor intends to reduce the speed limit for motorists on the Conduit road from twelve to six miles an hour. "They will have to crawl through this town now," he declared today. He added that Marshal Collins would continue to stop diplomats every time they pass through the village in excess of the speed limit. The townspeople are stirred up over the action of the State Department in making war upon Mayor Garrett.

The War Department today received cable advices from the Philippine of the death from cerebral hemorrhage, of Captain Wm. M. Crofton, First infantry. He was born in Virginia in 1870 and appointed to the army in 1891, as a second lieutenant from Illinois.

### Speaker Cannon in Danger.

Speaker Joseph G. Cannon, of the House of Representatives, is in danger of being blown up, unless he ceases to block legislation in which the Federation of Women's Clubs is interested. He should be dynamited, thinks Mrs. Mary Morton Kehew, chairman of the federation committee on legislation. Mrs. Kehew in the delivery of her report to the federation convention in Norfolk yesterday, said: "It seems that the committee having laws in hand experienced considerable difficulty in having them enacted at the last session of Congress. It was all Speaker Cannon's fault, as he retarded definite action persistently. He ought to be dynamited. Somebody ought to get behind him with a good big charge and set it off; then, perhaps, something would happen. Nothing short of dynamite would do to wake him up." She also declared that women's clubs had flooded the House of Bepresentatives because of the blocking game of Cannon's. She memtioned particularly the free art bill, the forestry and reservation bill, and the child labor law.

Illinois women were urged to work on the Speaker.

There has been another reign of terror and violence in Lodz, Russian Poland, since June 2. Eleven persons have been killed, including two mill owners, and thirty-seven have been wounded. The workmen have formed a secret vigilance committee, which every night executes one or more bandits or terrorists. Ratliff is accused of having feloniously assaulted Miss Ona Bird.

Carried by a gust of wind that whirled her go-cart to the curbing in Chicago Wednesday night, Madeline E. Johnson, fourteen months old, was struck by a passing sprinkling wagon and almost instantly killed. The child was thrown from its place in the tiny cart and dragged along the pavement for some distance. Charles Strubin the driver of the wagon, failed to see the rapid approach of the unattended go-cart. Strubin was arrested, but was later released.

The Conowingo bridge, which spans the Susquehanna river between Cecil and Harford counties at Conowingo, Md. was destroyed by fire late Wednesday night. The bridge, which was a covered wooden structure, was set on fire by firebugs from the Hartford county side, and so rapidly did the flames spread that about three-quarters of a mile of the structure was consumed. The incendiaries used kerosene, which was spread over a quarter of a mile of woodwork. The loss is estimated at between $100,000 and $125,000.

The traditional union "walking delegate was replaced in Chicago this week by a person carrying a "snapshot" camera under his arm. The person was the "camera delegate," something new in organized labor circles. "The camera delegate" is a combination of walking delegate and photographer, whose duty is to take pictures of buildings under construction so that he can call a strike from his office without visiting the "job." It is the plan to photograph every building in the city where union men are at work as well as a number where nonunionists are employed.

There was a flurry of interest around the White House offices yesterday in connection with the Taft-Foraker feud because of the appointment of Gen. Wm. V. McMackin to be collector of internal revenue at Toledo. As Senators Foraker and Dick indorsed this prominent brigadier of the Buckeye National Guard the appointment was hailed as significant. The Foraker people said at once that it was an olive branch from the president, and the Taft people said it was in reality only a shrewd political move to wean away from the organization the support of the National Guard, which is a powerful political factor. General McMackin is expected to declare soon now for Taft, who was consulted and assented to the selection.

### Charges Against Mayor Schmitz.

Former Police Commissioner Reagan was the star witness in the trial of Mayor Schmitz in San Francisco yesterday and he told that he straightforward and convincing a story seriously damaged Schmitz Reagan was a street paver when Schmitz took him up and made him police commissioner, because he evidently thought Reagan could be easily induced to vote just as the mayor wanted.

When the cases of the French restaurant keepers came up, Reagan joined Hutton in investigating them, and when he was convinced that these places were really disorderly houses he voted with Hutton to take away their liquor licenses and nothing that the mayor could say had any effect on him.

Reagan gave on the stand the whole history of the mayor's scheme to have Hutton hold up the French restaurants and then bleed the proprietors himself. He told of the mayor's futile efforts to get him to vote for renewing their licenses, as they had promised to obey the law. Then, he said, the mayor declared he would oust Houston, who, he had become convinced, was no longer acting in the interests of the people.

At the afternoon session, Reagan completed his testimony, and former Police Commissioner Poheim and Toney Blanco, proprietor of the "Pap" restaurant, testified. Blanco declared he gave $1,175 to Ruef, but he didn't connect the mayor with it.

George B. Lindsay, who on Monday afternoon shot and instantly killed Joseph C. Coleman in Danville, was yesterday indicted for murder in the first degree. The evidence so far shows the killing to have been unprovoked, and that Lindsay opened fire on young Coleman because he remonstrated with him for knocking a woman down. The case will be tried at this term of court.

In a letter received yesterday at the department of agriculture, George W. Koiner, who is now in Europe, writes that he expects to be at home by July 1, being anxious to spend July 4 in his native State. Mr. Koiner is getting along remarkablely well in his work of bringing desirable farm help and domestics to this country, and he expresses the belief that before many months he will have thousand of white domestics to fill places in the cities of the State.

The second section of train No. 16, the Washington and Chattanooga Limited, on the Norfolk and Western Railroad, was wrecked yesterday morning at 4:45 o'clock on a fifty-foot embankment a mile west of the union station in Lynchburg. The baggage and express cars went over the embankment, and Express Messenger W. E. Ward, of Bristol, and Baggagemaster G. B. Walker escaped with slight injuries. ### Killed in Automobile Accident.

Clarence McKenzie, president of the Standard Brake Company, of New York city, was instantly killed last night when the automobile in which he was a passenger was struck by a car of the Albany and Hudson electric line. McKenzie had been sitting on a small rumble seat of a 24-horsepower Corbin automobile, of the runabout type, driven by James Swan, of New Britain, Conn., the automobile being No. 29 in the endurance contest which the New York Motor Club was conducting from New York to Albany. The roads had been very bad on account of the rain that had fallen during the afternoon, and Swan was hurrying toward Albany along the State road.

There is a slight down-grade on the road before it crosses the tracks of the Albany and Hudson line at grade, and Swan could not see the trolley car approaching on his left from Albany in time to stop his machine, as the Clinton Heights Hotel hid the trolley car from view until he was within seventy-five feet of the track.

The automobile had almost crossed the track when the car struck it, and McKenzie was thrown forty feet over the wire fence against a pole and killed instantly. The driver of the automobile was pitched out, but not seriously hurt.

It was learned last night that Mrs. McKenzie tried to take her own life in New York after she had been told over the 'phone that her husband was killed. She lies in a serious condition and her recovery is doubtful.

Lacy, of the Presbyterian Church, and Rev. George S. Bowers, of the Lutheran Church, taking part in the exercises. General Turner Ashby Camp, Confederate Veterans, Capt. George W. Kurtz commanding, had charge of the day's programme. The graves of nearly 6,000 Confederate soldiers buried in Winchester were strewn with flowers by the Ladies' Memorial Association and the Daughters of the Confederacy. Capt. James M. Haymaker was chief marshal of the parade, Thomas S. Chamberlain and Abner Ferguson assisting.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rambling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## Today's Telegraphic News

### Orchard's Testimony.

Denver, Col., June 7.—Supreme Court Justice W. H. Gabbart, who Orchord says was the intended victim of a bomb laid in a vacant lot, through which the judge was in the habit of traveling to and from the Capital building, says that Orchard's testimony fits in exactly with the incidents connected with the killing of Wally by a bomb.

Mrs. James Peabody, wife of the former Governor, recalls the night when two men followed her carriage.

Max Malich, a politician and member of the union of Globevi, says that Orchard told him he would kill Steunenberg because the latter prevented him from becoming a millionaire. Orchard, reasoned according to Malich, that Stunenberg's request for troops during the strike compelled him to leave the country and to dispose of his interest in the Hercules mines. The purchasers subsequently became millionaires.

The defence is greatly disappointed at the wide range of testimony admitted so far. Richardson began a cross-examination of Orchard when the witness resumed the stand this morning. At the beginning Orchard made a few minor corrections in his testimony of Thursday. Orchard was questioned at length relative to the blowing up of the Bunker Hill and Sullivan mines at Wardner. He stuck pretty close to his story of the Warner explosion as originally recited.

### London Horse Show.

London, June 7.— Sir Humphrey, the only American horse entered in today's competitions at London's horse show this morning captured the first prize in his class, for hackney stallions of four years old and upwards. The horse is owned by F. Babst, of Milwaukee.

"Sir Humphrey" also won the champion gold cup for the best hackney stallion in the show, offered by Sir John Kerr.

London, June 7. — London today made its first bid as a serious rival to New York in giving successful horse shows with the opening at Olympia of its first great equine exhibition. The international character of the gathering and the fact that it is supported by society of all Europe gives the exhibition its best standing. New York has contributed largely to make the exhibition what it is, and any success it attains must be credited largely to the United States. Of the 2,000 entries over 300 come from the United States. Chief among the American exhibitors are Alfred G. Vanderbilt, Ogden Armour, A. B Maclay, Col. Laurence Jones and Mrs. Orr Barclay. The prizes amount to $37,500 and it is predicted the American entries will carry off a good share of the money.

### Saved from Mob.

Shamokin, Pa., June 7.—Charles Latsha, a former local football player, was hurried to jail yesterday to escape a furious crowd's vengeance. He was charged with attacking Mrs. Walter Gusky Wednesday night. She was alone at her home, with an infant, when Latsha, she charges, broke into the house and gagged the defenseless young woman with a handkerchief. She fought desperately and succeeded in removing the gag and emitting a scream for help. Her cry was heard by neighbors, who hurried into the house. They declare Latsha pulled a stiletto from his pocket and was about to strike her. He escaped, after having torn nearly all of Mrs. Gusky's clothes off. He was captured by the police.

### Industrial Development for Ireland.

London, June 7.—Richard Croker, former boss of Tammany Hall and winner of the English Derby, is to become the patron saint of Ireland. Croker has a plan for the industrial development of the emerald isle which he believes will bring prosperity and happiness to the country, Ireland's salvation, he now believes, lies in her industrial progress. Last year Croker gave $20,000 to the nationalist party but this brought Ireland no substantial gain. There is a growing feeling that Croker has hit upon the right remedy for Ireland's ills and it is expected many other Americans will follow his lead. Croker was today asked to outline his plans, but declined at this time.

### Fatal Jump.

Philadelphia, Pa., June 7.—To escape death from fire that destroyed their home early today five members of the family of Isaac Greenbaum jumped from a third story window. Greenbaum, who was 62 years old, landed on the pavement on his head and was instantly killed. His wife, Annie, 60 years old, and their children, Rosie, Abraham and Blanche, are in the hospital, having sustained serious injuries. Rosie's condition is critical. Jerome Reynolds, a negro, who worked for Greenbaum, was arrested and held in $500 bail suspected of having fired the house. The blaze started in Reynold's room on the second floor and when all the inmates of the house were leaping from windows to save their lives Reynolds was caught running away.

### Explosion Causes Fire.

Maynard, Mass., June 7.—Daring work of firemen, who time and again risked their lives to prevent the flames from reaching other parts of the mills, averted a much greater catastrophe today when an explosion of blasting powder set fire to the plant of the American Powder Company. The explosion wrecked two buildings, shook many houses and broke thousands of panes of glass. No one was seriously hurt, but several persons were cut and bruised from flying glass. The cause of the explosion is unknown. The damage to the plant was $25,000.

### Killed by Joint Agencies.

Jersey Shore, Pa., June 7.—A furious storm and a rushing train were joint agencies in bringing about the death of Henry Bonnel, a civil war veteran, who succumbed in the Williamsport Hospital last night after an experience as terrific, probably as any man was ever called upon to endure. While on the mountain near here yesterday Bonnel sought refuge from the storm in a small cabin at a stone quarry.

A heavy gust of wind tore the little house from its foundations, and before the occupant could escape the building was tumbling down the mountain. Hurled ruthlessly about in his death cage, Bonnel was utterly helpless. The cabin, forced on by the wind and unobstructed except by small stumps, rolled on until it fell onto the railroad tracks at the foot of the mountain. Here it landed, a mass of tangled timbers, with the unconscious man in its midst.

Hardly had the house struck the tracks when a fast freight train bore down upon it, and, before the engineer could stop, drove into the wreckage and passed almost through it. The train crew, clearing away the debris, was astonished to find the man inside. It was found that not only was his skull fractured, but he had suffered severe internal injuries. He lingered until last night, when he succumbed.

### Cyclone in India.

Bombay, India, June 7.—Kurrachee, a town of 120,000 population, situated on the Arabian sea, has been swept by a disastrous cyclone. Thousands of lives are believed to have been lost, although details from the scene are lacking. It is reported practically every house in the town was destroyed. Several vessels in the harbor, one of the best in India, were driven ashore. Many persons are reported to have been drowned. A tidal wave is reported to have accompanied the cyclone, sweeping far inland over the low-lying land on which the city was built.

Residents who escaped are in a panic. The property loss will be enormous

Kurrachee has an extensive shipping interest and it is reported these have suffered severely. Practically every ship in the harbor is said to have been wrecked. The damage was brought by wind and water.

Practically the entire population is homeless as the few buildings which remain standing are not safe.

In 1901 the town had a population of 116,000, and it has grown constantly.

### The Outbreak in China.

Shanghai, China, June 7.—A general revolt in the province of Sze-Chuen is reported to have broken out following the attack announced yesterday on a mission station at Kaish-Sien. Arms and ammunition are said to have been smuggled into the province, and it is feared the outbreak may assume serious proportions.

Efforts of the authorities to enforce the new law against the cultivation and sale of opium has caused the uprising. Foreigners are blamed by the Chinese with having inspired the law and the outbreak, for this reason, assumed an anti-foreign character.

Reports from the three provinces in revolt indicate less open agitation by the rebels. It is known the propaganda is being carried on secretely, however, and it is feared a violent outbreak may occur soon.

Fearing smuggling of arms into the interior the government has instructed the careful inspection of every vessel arriving at Chinese ports.

### Man and Woman Identified.

London, June 7.—The man and woman drowned yesterday in the Thames while boating have been identified as residents of New York. It developed that they met their deaths while taking a pleasure ride on the river in celebration of the woman's birthday. The woman was Mrs. E. M. McLean and the man was G. Otto Eltrick. Mrs. McLean had been visiting a sister at the Hotel Russell. Eltrick was a friend of the woman. He called to help her celebrate her birthday. Eltrick's home is at Freeport, L. I., and he is engaged in business in New York. He had been stopping at the Imperial Hotel for a week. Among his effects were papers referring to the American Railway Constructing Company and several sealed documents for Henry Guinard.

### Orchard's Story Coroborated.

San Francisco, June 7.—The story of Orchard in the Boise trial that he tried with poison and bomb in this city to murder Fred W. Bradley, former manager of Bunker Hill and Sullivan mines in Idaho, is confirmed by Bradley. He says that his milk tasted very bitter at one time and it was thrown out before any one in the family had used it. Soon after this the flats in which he lived were nearly demolished by an explosion. Bradley was terribly injured. It was supposed gas caused the explosion and the owner of the building secured a verdict of $10,000 damages against the gas company.

### More Tales of Horror.

Boston, June 7.—Acting on tales of horror told by the wife of an Italian who is being held for the murder of Valentio Dipetro, a noted Boston anarchist, the police are trying to round up a band of Italian anarchists whose deeds, according to Mrs. Digravio, parallel the revelation of Harry Orchard. It was only in the hope of saving her husband from death that the woman revealed the secrets, but if her associations are proved and the persons she accuse are arrested, there will be one of the most sensational trials ever seen in the east.

She says that she overheard the plotters discussing their murderous plans and she was in her home when her husband fired the bullet which ended Dipetros life.

Mrs. Tucker was formerly Miss "Dolly" Logan. She and Col. Tucker were married about thirty years ago. They have one son, who is now in the navy. Incompatibility is given in the reports that have been circulated as the reason for the alleged separation.

Col. Tucker is now in Chicago where he went recently from the Philippines. Until some time ago Mrs. Tucker was also in the islands with her husband, but left several months ago for the States.

Col. Tucker is the son of a once wealthy Chicago man. The father failed years ago, and the son entered the army.

And in heaven with joy to greet thee,
Where no farewell tears are shed.

### City School Board.

Capt. Herbert Bryant presided last night at the meeting of the City School Board, and in the absence of the clerk Mr. L. H. Thompson acted as clerk. There were also present Messrs. Yates, Thomson, Ramsay, Carne, Smoot and Superintendent Kemper.

Mr. Carne, from the committee on studies and discipline, reported adversely on the application of J. H. Depue for the introduction of a school of bookkeeping and penmanship in the schools, and the report was adopted.

Mr. Yates, from the committee on school houses and furniture, reported that he had had sash locks placed on windows in Washington school building, as some person or persons had recently invaded that building and stolen sundry articles.

Mr. Thomson, from the finance committee, to whom a resolution asking Council for an appropriation of $500 to make sewer connections at Washington school building had been referred, reported that while the movement met with the approval of the committee, they could not ask the City Council for any more money at present.

Mr. Yates, who had introduced the resolution, thanked the committee for the consideration they had given it, but said the matter of sewerage was a criminal necessity, and should be brought directly to Council.

Mr. Ramsay said that while he approved the plan, it was by no means a pleasant duty to importune Council for money.

Superintendent Kemper said the schools were not receiving from Council the amount due them.

The report was adopted.

The finance committee asked to be relieved from the further consideration of the resolution (introduced by Mr. Yates) looking to the erection of a new school building for girls.

Mr. Yates wanted the matter placed before Council.

After some interchange of opinion a motion was made that the resolution, attested by the clerk, be sent to the City Council

Mr. Thompson said he failed to see what could be accomplished by such a course at the present time. Council had no money at its disposal with which to erect such a building as was contemplated. It might, however, be a good way in which to dispose of the resolution.

Chairman Bryant and others thought the best course was to refer it to Council, and it was so ordered.

A bill of S. F. Dyson & Bro., $4, for crayons, was ordered to be paid, as was also a bill of W. E. Bain, $3 25, for sundries, and a bill of G. H. McGuire, $2, for placing sash locks on windows in Washington School building.

Superintendent Kemper reported that he had visited the schools during the past month, noted absentees, &c. On the suggestion of the Superintendent June 18 to the 21st was fixed upon as the days upon which to close the schools.

On motion of Mr. Carne the usual appropriation for medals and cards of honor was made, after which the board adjourned.

### Cornerstone Laying.

As considerable interest is manifest in Masonic circles over the laying of the cornerstone of the new Masonic Temple in Washington tomorrow, and as Alexandria-Washington Lodge, of this city, has been invited to participate, it will be of interest to many to know of the part the fraternity of this city has taken on like occasions in the past. On April 15, 1791, Alexandria Lodge, or as it was then known, No. 22, in the presence of the commissioners appointed by President Washington and the Mayor and Common Council of Alexandria and a large concourse of people, laid the first cornerstone of the District of Columbia on Jones's Point, just below this city, Dr. Elisha Cullen Dick, Master, performing the ceremonies On the 18th of September, 1793, they participated in laying the cornerstone of the United States Capitol at Washington. On this occasion the procession formed on the "President's Square" and marched to where the Capitol now stands. General Washington, then a Past Master of No. 22, brought up the rear of his own lodge with Dr. Dick on his right. It was on this occasion that General Washington used the little trowel and the gavel that will be used tomorrow. In addition to these occasions they took part in the ceremonies of laying the cornerstone of the Smithsonian Institute, May 1st, 1847; of the Washington Monument July 4th, 1848; the equestrian statue of Washington at Richmond, Va., Feb. 22, 1850, and performed the Masonic service at the funeral of General Washington on Monday, Dec. 16th, 1799. In 1849 the late Maj. George Duffey, in order to preserve the Washington trowel which had been made by his (the Major's) grandfather, presented the lodge a new one, made by himself, and this has been in constant use since that time. On each of the above named occasions, when there were other lodges here, they participated with Alexandria-Washington Lodge in the services, and the Worshipful Master of that lodge extends a cordial invitation to all Master Masons visiting in this city to join them on this occasion as in the past.

### Papers Submitted.

The papers in the case of Police Captains W. H. Mathews and J. E. Mulhall, charged with misconduct at the railroad accident, September 11, at Maryland avenue and Sixth street, southwest, Washington, in which Engineer Hugh Murphy, of this city, was killed by an overturned engine, will be sent to the Commissioners today. The majority repoet exonerates Mulhall and finds Mathews guilty on the specification that he struck Capt. W. A. Dixon, of the fire department. The suggested punishment is a reprimand.

### Runaway Boy.

Mr. J. E. Cornnell, night watchman at the Potomac railroad yards, north of this city, found a white boy, ten or twelve years of age, on one of the platforms about half-past 3 o'clock this morning. The boy gave his name as John, said he was from Washington and was on his way to Alexandria, where he had relatives. The youth was barefoot, and had ligh. hair and small features. Mr. Cornnell directed him to the road leading to this city. The boy left the watchman, but an hour later he was found sitting on some boxes on the same platform where he had been first seen. He started to run, but Mr. Cornnell caught him and fastened him up in the office, where he intended to keep him until morning, at which time the watchman would have accompanied him to this city, but the boy later raised a window and made his escape.

They proved futile, however, and his death followed this morning.

### Alexandrians in Trouble.

Harvey Robinson and Charles Markell, two young Alexandrians, have been arrested in Washington on suspicion of stealing copper wire believed to be the property of the Western Union Telegraph Company. It is said that Robinson and Markell went to Washington Wednesday and interviewed a junk dealer of that city. They stated that they had a quantity of copper wire they wanted to dispose of, which they would deliver the next day. The two men then employed a horse and wagon from a stable in this city, Robinson, it is claimed, giving an assumed name, and later went to a stable in the alley running through the square bounded by King, Cameron, Fairfax and Royal streets, where, it is believed, they placed the wire in the wagon. They then went to Washington where they sold the wire, weighing 525 pounds, for $63. It cost the Western Union Company $143.85. The police station in this city has been notified of the arrest.

Today Robinson and Markell confessed that they removed the wire from the cellar of the Western Union telegraph office, entering the premises from the alley described above. Officer Ferguson went to Washington this afternoon to bring the two men to this city.

### The Congressional Race.

Charles C. Carlin, of Alexandria, one of the four candidates for the Democratic nomination to represent this district in the United States House of Representatives, has made a most brilliant canvass. His campaign has been a clean one and free from personal criticism of his opponents. Indeed, Mr. Carlin has repeatedly stated, in his numerous public addresses, that he wishes to win the nomination by reason of his own merits, and not upon the demerits of the gentlemen with whom he is contesting. His fight has been a fair, square and open one—just the kind of a canvass that Virginians like and applaud. That his course has been a popular one is attested by the remarkable strength that he has developed in every part of the district. While the writer may be somewhat biased in his views, we do not think that we fall far short of the mark when we say that every indication points to the fact that Mr. Carlin is easily the leader in the present race.

Charles Carlin is a self-made man and that fact alone has brought him hundreds of supporters throughout the district. People, and especially Virginians, never fail to appreciate a man when he has fought the battles of life alone, and unaided. Carlin started his business life as an office boy in his home city of Alexandria. From that, long before he attained his majority, he entered the employ of a telephone company, with whom he worked as one of their construction force. While working for this company he read law and attended a law school at night. This showed his indomitable pluck, and determination to attain success in life. At an early age he graduated from his law school and was admitted to the bar.

After some years of practice Grover Cleveland appointed him postmaster of Alexandria City. The office came to Carlin unsought.

Concluding his four years service as postmaster of his native city, he resumed the active practice of his profession, in which he has been successful to a greater extent than usually falls to the lot of a man of his age—forty-one. This is the history of a self-made man. It is enough to win the support of every man who admires pluck, energy and ability.

And now, for the first time in his career, Charles C. Carlin seeks an elective office. He has no record of public service to which he can point to, with pardonable pride. Excepting the postmastership of Alexandria City, which is really not an office in the political sense of the word, Mr. Carlin has never held an office. But he has a record as a private citizen and as a public-spirited man, to which he can refer to. Does any one doubt that Carlin would prove an able representative and faithful custodian of the rights and interests of the people of the Eighth Virginia District? We have yet to hear of the first instance where it has been said that he is not fully qualified for the high office to which he aspires. His business experience and wide acquaintance with men of affairs and with the leaders of both great political parties would add greatly to his usefulness and value as a representative of a constituency that has so many varied connections with the city of Washington, as has this district. The people of Northern Virginia are certain to realize and appreciate these things, and, if appearances count for anything, it seems that their voices, as it will be registered on the 19th day of June, will demonstrate the fact that they have not been misjudged by those who hold to the belief that Charles C. Carlin is, by a widely safe margin, leading in the present Congressional race.—*Culpeper Exponent, May 31.*

## When Prescriptions are Wanted

Dienelt's Pharmacy enjoys the favor of all intelligent people. The reason is not hard to understand. Reliability describes it exactly. Physicians have made it perfectly understood that their prescriptions must be filled exactly as written and under no circumstances can substitutes be tolerated, therefore the bulk of prescriptions come to us because we find our drugs and medicines are known to be absolutely reliable.

### Lockout in Washington.

The long-pending difficulties between union labor and its employers in Washington have at last reached the climax in a general lockout, which will take effect at once. About 2,000 skilled mechanics will be out of work by tomorrow and over $2,000,000 worth of building operations will come to a standstill. This drastic action has been taken by the Employers' Association of the Building Trades, whose governing council has adopted a resolution that in view of the complicated and unsettled conditions of labor industries in Washington all operations covering work performed by plasterers, metal lathers, tilelayers, galvanized ironworkers, ornamental ironworkers and hoisting engineers who now refuse to work upon improvements in course of erection cease until free and uninterrupted continuation of building operations can be effected.

Nearly two years ago a disagreement arose between the plumbers and their employers over the question of the open shop. Arbitration boards have been appointed from time to time to conciliate the two sides, but without success. Other trades have been drawn into the contest, until at present almost every organized union in Washington is having trouble at one place or another with employers. All efforts to bring about a settlement have failed, and, as a last resort, the employers have decided upon a general lockout.

### Explosion on Turkish Vessel.

A Turkish vessel, laden with contraband ammunition and bound for Tripoli, which has been blown up in the vicinity of Port Arziss, carried down with her the entire crew, as well as eighty fishermen who were alongside at the time. They were all drowned. The vessel had on board a number of rifles and 500 barrels of powder. The Tunisian authorities learned she was about to take advantage of the absence of the guard ships to try to disembark her cargo on the beach. They thereupon ordered a number of armed boats belonging to sponge fishers to prevent the landing. Twenty-four of these boats went out and surrounded the vessel, and the men from them were just about to swarm aboard when a terrific explosion occurred. It is believed the captain fired his vessel to avoid capture. A majority of the sponge boats went down with the vessel. The explosion was heard for a distance of sixty miles. Arziss is in Tunis, near the frontier of Tripoli.

### Killed Wife and Lover.

A dispatch from Vienna says that Simon Ancich, a gamekeeper, of Vrpojei, in Croatia, took a swift revenge on his deserting wife and her lover Tuesday. He had married a beautiful girl named Anna Simich, but treated her with such cruelty, owing to jealousy, that she decided to run away with a former lover. While her husband was out on duty Tuesday she drove off in a cart with her lover and her father. Ancich arrived sometime later to find that his wife had left with her lover, and, mounting a horse, gave chase. He followed the tracks left by the cart in the snow, and many miles from home sighted the fugitives. They whipped up their horse to a gallop to escape, but Ancich quickly overhauled them, and then drawing a revolver shot his wife and her lover dead, and dangerously wounded his wife's father. Ancich then hitched his own horse to the tail of the cart, and drove back with the bodies to his home, where he gave himself up to the police.

### Threw Child from a Window.

Thrown out of a window on the second floor by her insane mother, little Florence Beck, fifteen months old, daughter of Mrs. Lena Beck, of New York, had a remarkable escape from death yesterday afternoon. Mrs. Mary Hogan, a neighbor, happened to be passing the Beck house and saw the form of the child as it came through the window. She wore a wide gingham apron, and, quick as a flash, she spead it out, and, using it as a life net, caught the little one as neatly as ever a ball player caught a fly ball. The child was not injured and was taken upstairs to its father. The mother, who has been ill and acting strangely for sometime, was sent to a hospital.

"Fresh Roasted Coffee?—bah! Mother didn't use fresh roasted coffee, she had Arbuckles."

The way to get a good cup of coffee that tastes like Coffee with all the delicious flavor and aroma intact, is to buy a package of the old original Arbuckles' ARIOSA Coffee, and grind it as you want to use it, first warming it a little to develop the flavor and make the grinding easy. Coffee loses its identity as Coffee after being ground or exposed to the air and is easily contaminated by handling.

Arbuckles' was the first roasted packaged coffee.

The pores of each coffee berry are sealed after roasting with fresh eggs and granulated sugar to hold the goodness in and make the coffee settle clear and quickly; an actual application by machinery, of "Mother's" methods—as patented by this firm.

Sold only in packages, sealed for the customer's protection, containing one pound full weight. Sales for 37 years exceed the combined sales of all the other packaged coffees. The best coffee for you to drink, and save your money besides.
Same old firm, same old coffee. If your dealer won't supply, write to
